## DETAILED ACTION

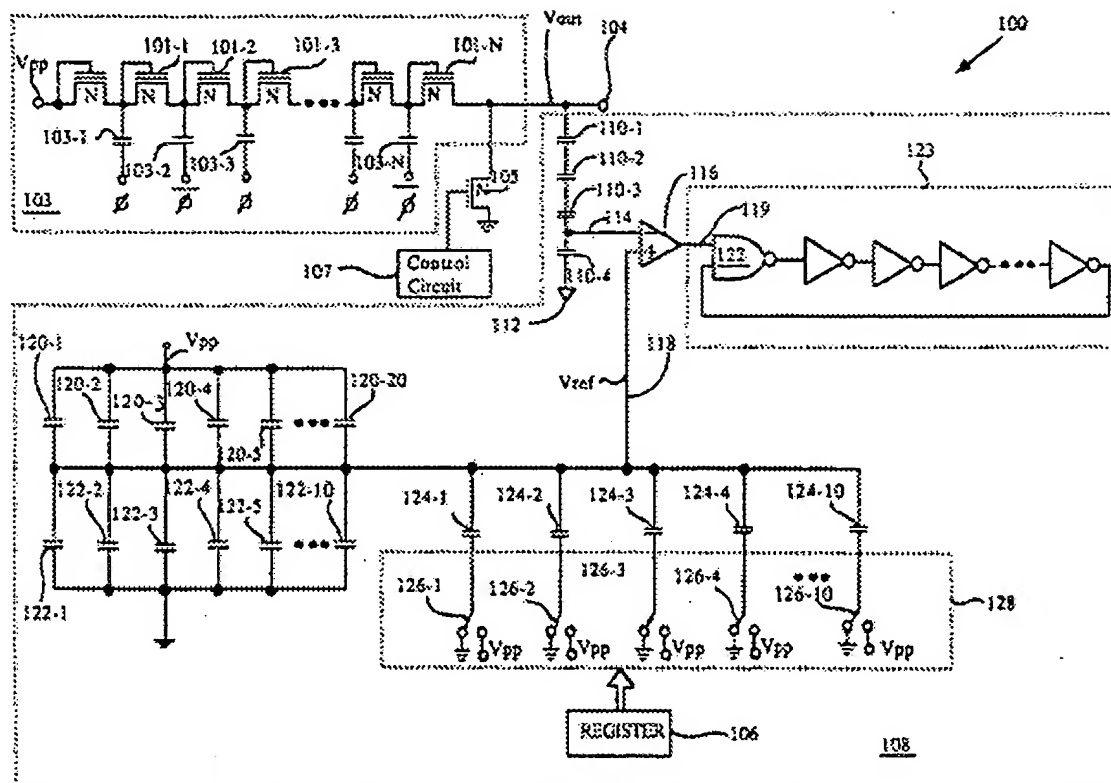

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kazerounian et al. (USP 5,086,974). Kazerounian discloses a capacitive multiplier circuit having a diode chain (103) and a charge pump circuitry (128) that connected between the input and output of the multiplier circuit (100). The action of charging the capacitors in parallel and discharging them in series is inherent feature in this charge pump configuration. See figure below.

### Response to Arguments

3. Applicant's arguments with respect to claims 1-8 are have been considered but are moot in view of the new ground(s) of rejection.

### Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
